PROJECT DESCRIPTION

BillerReinhart Structural Group, Inc. performed Threshold Inspector duties as per Chapters 471 and 553 of the Florida Statutes for three two-story classroom buildings. The structures consist of cast-in-place concrete foundations and floor slab on grade, reinforced concrete masonry walls, and steel framed elevated floors and roofs. BillerReinhart reviewed structural drawings, specifications, and submittals, performed site visits to observe project construction, and prepared reports documenting the work to the building code official having jurisdiction over the project.
